

**TOLSTOY FOUNDATION REHABILITATION & NURSING CENTER**  
**PRIVATE ROOM POLICY**

Tolstoy Foundation Rehabilitation & Nursing Center reserves the right to place Residents in private rooms at its discretion. A Resident may request a private room if there is one available, however, he/she will be required to move, should the room become needed. Residents and their families should understand that a private room placement is not guaranteed to be permanent. A Resident who has been placed in a private room may be asked to vacate the room should it become necessary.

**I have read and understand the policy regarding private rooms. I understand that should Resident be placed in a private room for any reason that this placement may not be permanent, and the placement may be altered at any time. Designated Representative will be notified of any room change should one be required.**
